EXPERIENCE

Project Manager 2024

I served as the Project Manager for a group mobile application development project, where I took charge of managing all project documentation.

Mobile App developer 2024

I gained a valuable experience in my University by creating a mobile application that will optimize the lab and lecture hall reservations. I used several platforms and programming languages to complete that project.

Web Developer 2024

I have created several websites in my undergraduate period as a project and gained a valuable experience in web development. And using several popular platforms gave me a valuable experience.
